The screenshot shows a web browser window displaying a GitHub repository page for 'arh09/GSI: Proyecto de GSI'. The browser's address bar shows the URL 'https://github.com/arh09/GSI'. The repository page includes a header with the repository name, a 'Private' label, and statistics for 'Unwatch' (1), 'Star' (0), and 'Fork' (0). Below the header, there are tabs for 'Code', 'Issues' (0), 'Pull requests' (0), 'Projects' (1), 'Security', 'Insights', and 'Settings'. The main content area shows the repository name 'Proyecto de GSI' with an 'Edit' button. Below this, there are statistics for '3 commits', '1 branch', and '0 releases'. A 'Branch: master' dropdown and a 'New pull request' button are visible. A 'Clone or download' button is also present. The commit history is displayed as a table with columns for the commit message, the action taken, and the time since the commit. The table lists several commits, including '73214913_2448274902113552_5224537040787341312_n.jpg', 'BSPharma.rem', 'README.md', and 'stories.docx'. The bottom of the screenshot shows the Windows taskbar with various application icons and the system clock indicating 23:23 on 27/10/2019.
